SERVICE & PARTS TRAINING CATALOGUE MOTORS 2026

OUR COMMITMENT:

TO ASSIST YOU IN DEVELOPING THE COMPETENCE AND PERFORMANCE OF YOUR EMPLOYEES AND YOUR SERVICE.

Version of October 27, 2025

EDITO

Dear Subsidiary,

The Group Academy is pleased to present its catalogue of services for 2026 and to inform you of our commitments for all subsidiaries:

- ✓ **To support you in developing the skills and performance of your employees and your service,**
- ✓ **To support you in resolving technical problems on customer vehicles,**
- ✓ **To standardize and normalize the skill levels of the group's technicians.**

The diversity of brands deployed by CFAO is a real asset for the development of our skills development offers to subsidiaries throughout the company's territories. This diversity challenges us to ensure a high level of service quality within the after-sales service, the parts service, the sales department and the financial and legal service.

To improve the quality of your employees' services, we recommend deploying the following technical skills acquisition cycle:

- ✓ **Measure** the current skills of technicians and teams,
- ✓ **Exploit** the results to guide the skills development strategy,
- ✓ **Define** individual and collective skills development plans,
- ✓ **Acquire** new skills through face-to-face or remote trainings,
- ✓ **Certify** the new skills acquired,
- ✓ **Apply** new skills in a professional environment,
- ✓ **Perform** in a professional environment.

We also offer to **assist** you in **resolving technical problems** that you encounter in your workshops, with **technical support integrated** into the Academy.

The development of new skills is carried out by certified experts each in their areas of expertise, using innovative training methods.

Thank you for your commitment to developing the skills of your employees. We look forward to hearing from you.

Laurent GONIN

TEAM MOTORS

The Douala Academy for MOTORS is dedicated to the **TOYOTA**, **SUZUKI, BYD, MERCEDES, MITSUBISHI, OMODA&JAECOO, PEUGEOT** et **CITROEN** brands.

The Academy is equipped with:

- A reception and restaurant,
- Three training rooms (blackboard, video projector, etc.),
- A 400 M² workshop,
- Engine, transmission and other didactic equipment,
- Eight véhicules,
- A parts store.

Our training courses are delivered at the Douala Academy and within all our subsidiaries. We also provide training at our customers' sites. Training sessions are made up of a maximum of twelve trainees.

Laurent GONIN
Director of CFAO training

André Yves BOKALLY
Training Coordinator & Project Manager

Claudia EYINGA
Training Assistant

Cédric PAKO
BYD Trainer and Expert Support Technician

Eugène EBENE
TOYOTA Trainer and Expert Support Technician

Damas NGUE LAH
TOYOTA Trainer and Expert Support Technician

Brice NECHI
STELLANTIS Trainer and Expert Support Technician

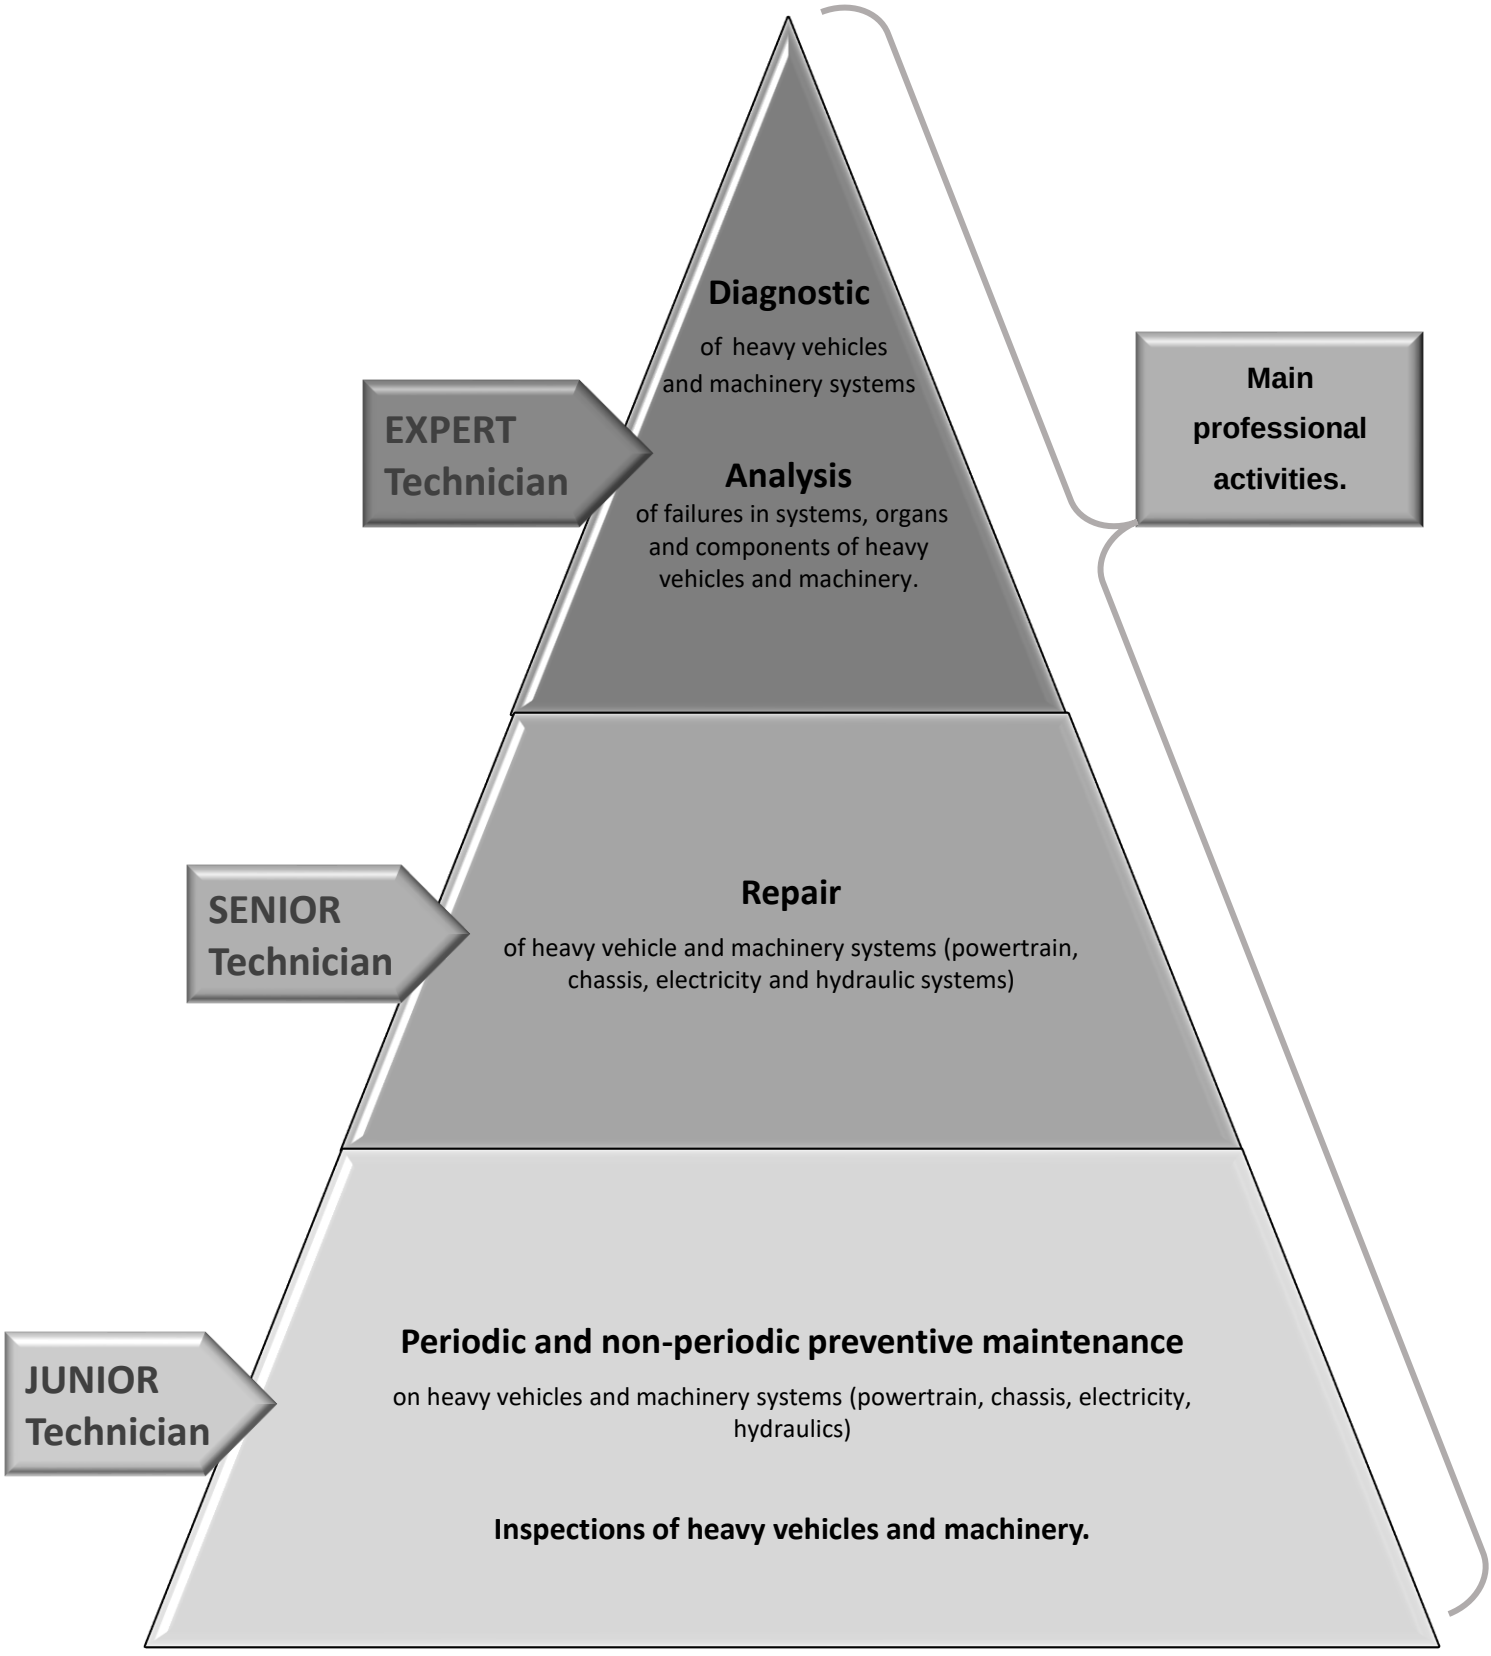

Gérold SADIO
Process SAV and Parts Trainer

Bomba COULIBALY (RCI)
MITSUBISHI Trainer and Expert Support Technician

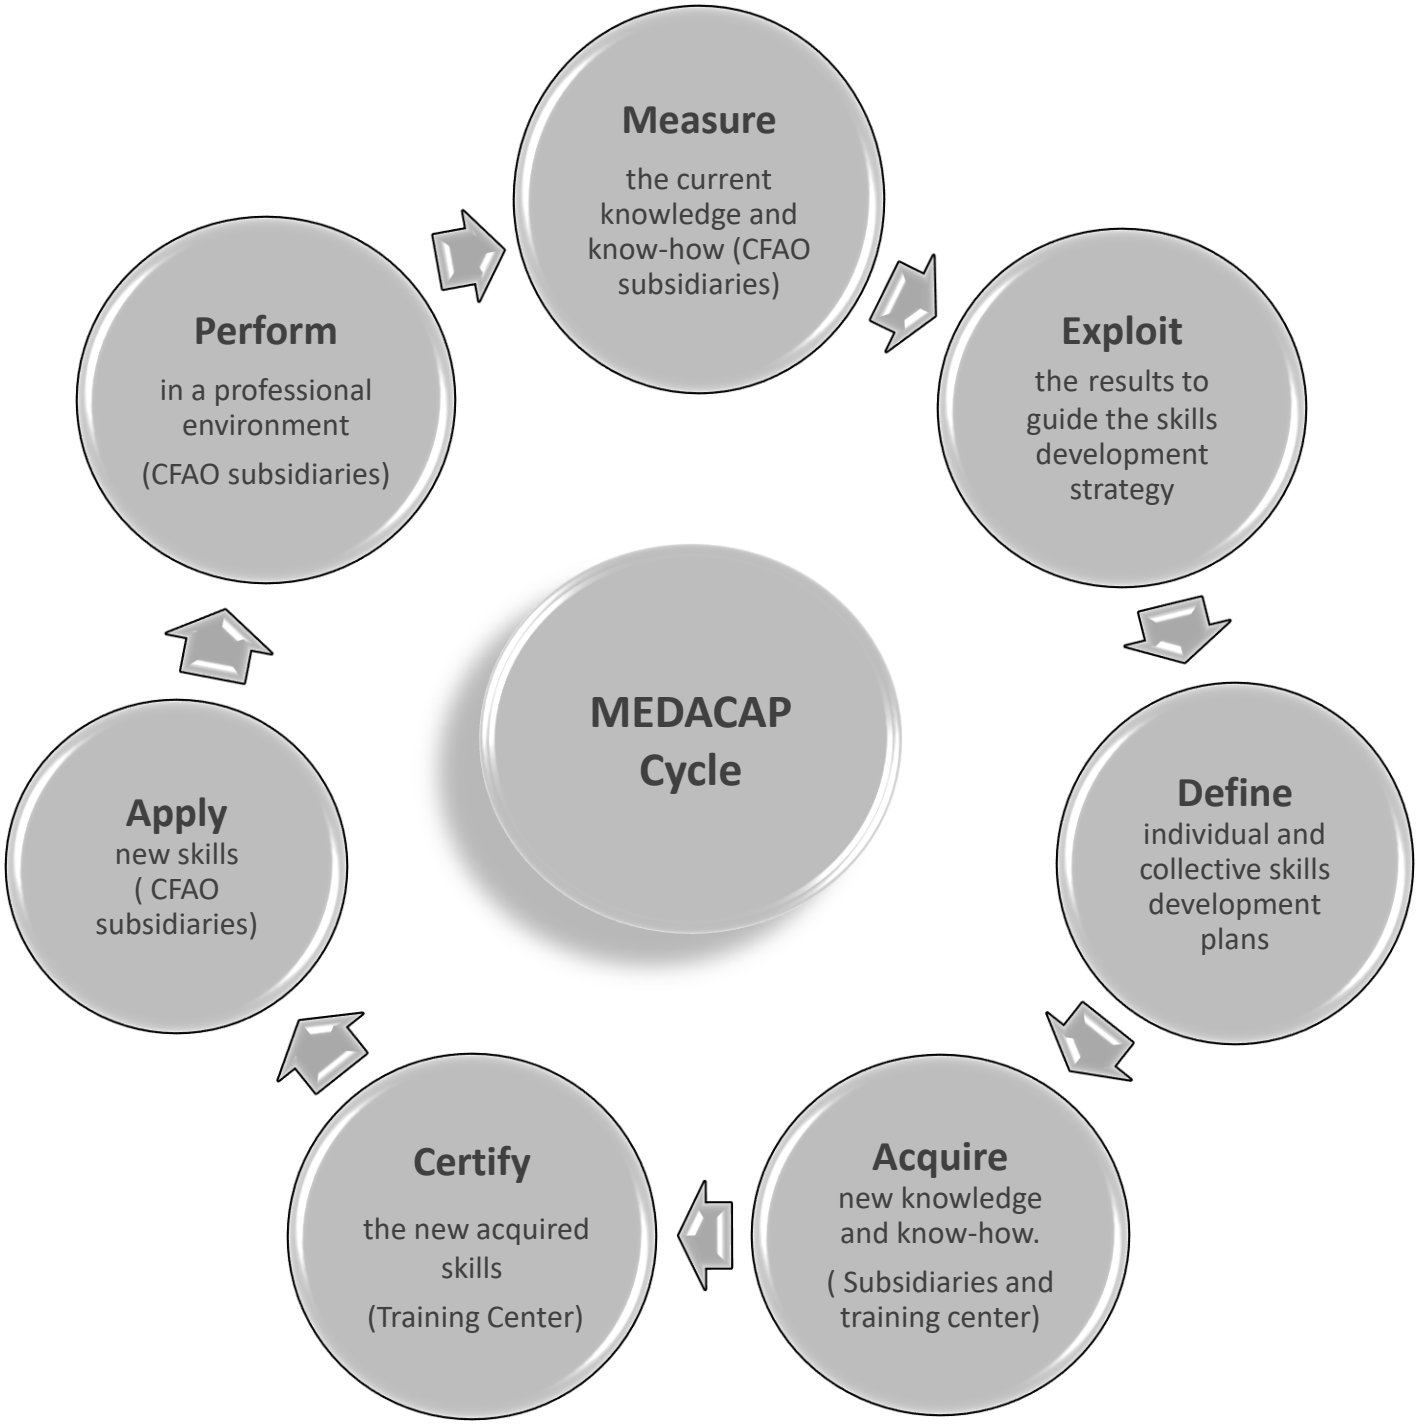

SKILL LEVELS OF TECHNICIANS

TRAINING BY TECHNICIAN LEVEL

Training Level	Training Online systems (Knowledge)	List of face-to-face training courses and certifications (know-how)	Duration (days)
EXPERT TECHNICIAN	• Diagnosis of systems with DTC, • Study of the control of all vehicle systems, • Study of multiplexing system, • Others online courses.	✓ To be deployed soon	
SENIOR TECHNICIAN	• Study of various vehicle organs and components (motorization, transmission, braking, steering, etc.), • Study of all workshop processes and overhaul and repair operations, • Other online courses.	✓ To be deployed soon	
JUNIOR TECHNICIAN	• Study of all vehicle systems, • Study of all workshop processes and preventive maintenance operations, • Study of the principles of maintenance, • Concept of electricity and electronics, • Other online courses	✓ **Notice** of intervention on BYD Electric vehicles. ✓ Preventive **Maintenance** of BYD Electric vehicles, ✓ **Certification :** Preventive maintenance of BYD electric vehicles.	05 04 01

DEVELOPING THE PROFESSIONAL EXPERTISE OF TECHNICIANS

Contents

Page	Code	Training designation	Dates	Places
3 to 5	Training program			
7	BEV01	Notice of intervention on BYD Electric vehicles	To be defined	To be defined
8	BEV02	Preventive maintenance of BYD Electric vehicles	To be defined	To be defined
9	BEV03	Certification : Preventive maintenance of BYD Electric vehicles	To be defined	To be defined

BEV01	NOTICE OF INTERVENTION ON BYD ELECTRIC VEHICLES

Level, mode and duration	Junior	Face-to-face	05 Days
Animator	**BYD Trainer and Expert Support Technician**		
Goals	• **Secure** a BYD Electric vehicle before any technical interventions (Maintenance, Repair, Diagnostics) • **Consign**/Switch off power a BYD electric vehicle • **Deconsign** a BYD Electric vehicle • **Maintain** the systems (powertrain, chassis, electricity) of BYD Electric vehicles in operation according to the manufacturer's recommendations • **Inspect** the systems (powertrain, chassis, electricity) of BYD Electric vehicles according to the manufacturer's recommendations • **Realize** current operations on different systems		
Description **Theory (50%)** **Practical (50%)**	► **Theoretical Part :** • Risk and Danger in case of exposure to High Electrical Voltage • Presentation of personal protective equipment (PPE) • Technical characteristics of hybrid and electric vehicles • Using the BYD manufacturer repair manual • Study of High Voltage (HV) circuits • Study of Low Voltage (LV) circuits • Thermal management system study • Procedure for consignment before intervention and deconsignment after intervention • Preventive maintenance precautions ► **Practical Part :** • Pre-Delivery Inspection (PDI) • Consignment before intervention and Deconsignment after intervention • Location of the main components for preventive and curative maintenance • Location of thermal management system components • Commissioning and use of the diagnostic tool (VDS 2100) • Reading High Voltage and Low Voltage Circuit Diagrams • Deactivation and activation of the electric braking system • Key registration (remote control) • 360° View Camera Calibration Operation		
Target audience	BYD technicians all levels		
Prerequisites	Knowledge of electricity and reading wiring diagrams		
Language	French		
Equipment	Equipped training room, Workshop, Computers, Hybrid and electric vehicles available, Workshop tools, Measuring tools, VDS 2100, PPE and High Voltage intervention tools.		
Documentation	Attendance sheet, Satisfaction sheet, Attestation of participation.		

BEV02	PREVENTIVE MAINTENANCE OF BYD ELECTRIC VEHICLES

Level, Mode and Duration	Junior	Face-to-face	04 days
Animator	**BYD Trainer and Expert Support Technician**		
Goals	• **Maintain** the systems (powertrain, chassis, electricity) in operation according to the manufacturer's recommendations, • **Inspect** the systems (powertrain, chassis, electricity) according to the manufacturer's recommendations, • **Receive** the vehicles of BYD customers.		
Description **Theory (30%), Practical (70%)**	► **Theoretical part**: • History, values and organization of BYD's After-sales service, • Principles of receiving BYD vehicles, • Description of the vehicle structure and roles of the different electrical systems, • The different types of maintenance (preventive, curative, others), • Principle of use of metrology tools, • Procedure for carrying out checks and inspections, • Precautions to be taken during Periodic maintenance Operations. ► **Practical Part** : • Remove and re-install the components (engines, pumps, differential, etc.) according to the manufacturer's recommendations, • Check the conformity of the components (dimensional, voltage, intensity, etc.) according to the manufacturer's recommendations, • Inspect systems (powertrain, chassis, electrical) with assistance from the VDS 2100 tool.		
Target audience	Operational technicians in preventive maintenance		
Prerequisites	Have completed basic training in electricity and electronics		
Language	French/English		
Equipment	Equipped training room, Workshop, Computers, Hybrid and electric vehicles available, Workshop tools, Measuring tools, VDS 2100, PPE and High Voltage intervention tools.		
Documentation	Attendance sheet, Satisfaction sheet, Attestation of participation		

BEV03	CERTIFICATION : PREVENTIVE MAINTENANCE OF VEHICLES

Level, Type and Duration	Junior	Face-to-face	01 Day
Trainer	**BYD Trainer and Expert Support Technician**		
Objectives	• **Assess** technical skills in preventive maintenance operations for electric vehicles, • **Certify** technicians who have validated preventive maintenance operations for electric vehicles.		
Description **Theory (10%)** **Practical (90%)**	► **Theoretical assessment themes:** • Powertrain system (Fuel, Lubrication, Ignition, Cooling system, etc.), • Chassis system (Clutch, steering, brake, suspension, vehicle movement), • Electrical systems (starting, charging, wiring, HVAC), • Organization of workshops (Activities, Advisor, etc.). ► **Practical assessment themes:** • Inspect vehicles, • Remove and replace the components (engines, pumps, etc.), • Check/control the conformity of the organs before reassembly, ► **Certification of technicians who have validated the assessments.**		
Target audience	Uncertified BYD Technicians		
Prerequisites	Have completed face-to-face training in preventive maintenance of Electric vehicles		
Language	French / English		
Equipment	Equipped training room, Workshop, Computers, Hybrid and electric vehicles available, Workshop tools, Measuring tools, VDS 2100, PPE and High Voltage intervention tools.		
Documentation	Training support + animation videos
