TECHNICAL TRAINING CATALOGUE 2026

OUR COMMITMENT:

TO ASSIST YOU IN DEVELOPING THE COMPETENCE AND PERFORMANCE OF YOUR EMPLOYEES AND YOUR SERVICE.

Version of October 27, 2025

EDITO

Dear Subsidiary,

The Group Academy is pleased to present its catalogue of services for 2026 and to inform you of our commitments for all subsidiaries:

- ✓ **To support you in developing the skills and performance of your employees and your service,**
- ✓ **To support you in resolving technical problems on customer vehicles,**
- ✓ **To standardize and normalize the skill levels of the group's technicians.**

The diversity of brands deployed by CFAO is a real asset for the development of our skills development offers to subsidiaries throughout the company's territories. This diversity challenges us to ensure a high level of service quality within the after-sales service, the parts service, the sales department and the financial and legal service.

To improve the quality of your employees' services, we recommend deploying the following technical skills acquisition cycle:

- ✓ **Measure** the current skills of technicians and teams,
- ✓ **Exploit** the results to guide the skills development strategy,
- ✓ **Define** individual and collective skills development plans,
- ✓ **Acquire** new skills through face-to-face or remote trainings,
- ✓ **Certify** the new skills acquired,
- ✓ **Apply** new skills in a professional environment,
- ✓ **Perform** in a professional environment.

We also offer to **assist** you in **resolving technical problems** that you encounter in your workshops, with **technical support integrated** into the Academy.

The development of new skills is carried out by certified experts each in their areas of expertise, using innovative training methods.

Thank you for your commitment to developing the skills of your employees. We look forward to hearing from you.

Laurent GONIN

TEAM EQUIPMENT

The Douala Academy for EQUIPMNET is dedicated to the **RENAULT TRUCKS, JCB, LOVOL, TOYOTA FORKLIFT, BT, FUSO, HINO, SINOTRUK, SHACMAN and KING LONG** brands and is equipped with:

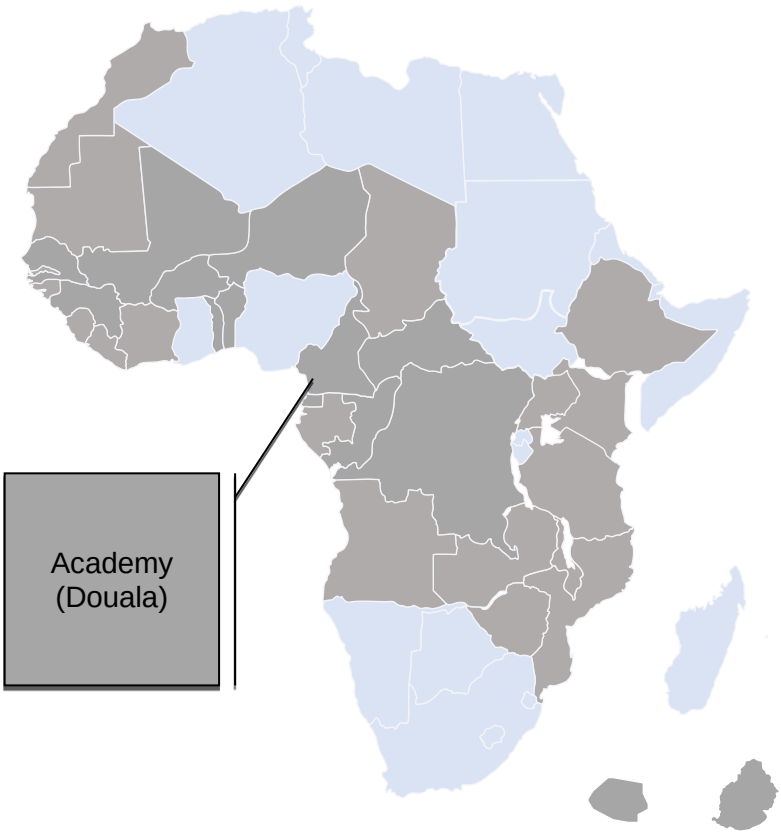

- A reception and a restaurant,
- Two training rooms (board, video projector, others),
- A 200 m² workshop,
- Didactic equipment for engines, transmissions and others,
- A RENAULT TRUCKS K Range truck

Our training courses are delivered at the Douala Academy and at all our subsidiaries. We also provide training at our customers' sites. Training sessions are made up of a maximum of twelve trainees.

CFAO Training Director

André Yves BOKALLY

Training Coordinator & Project Manager

Claudia EYINGA

Training Assistant

Lucien GAGNE

Technical Trainer Expert (RENAULT TRUCKS, HINO, FUSO)

Idris NKOA

Technical Trainer Expert (TOYOTA BT, KING LONG, SINOTRUK)

Thierry KOUGHA

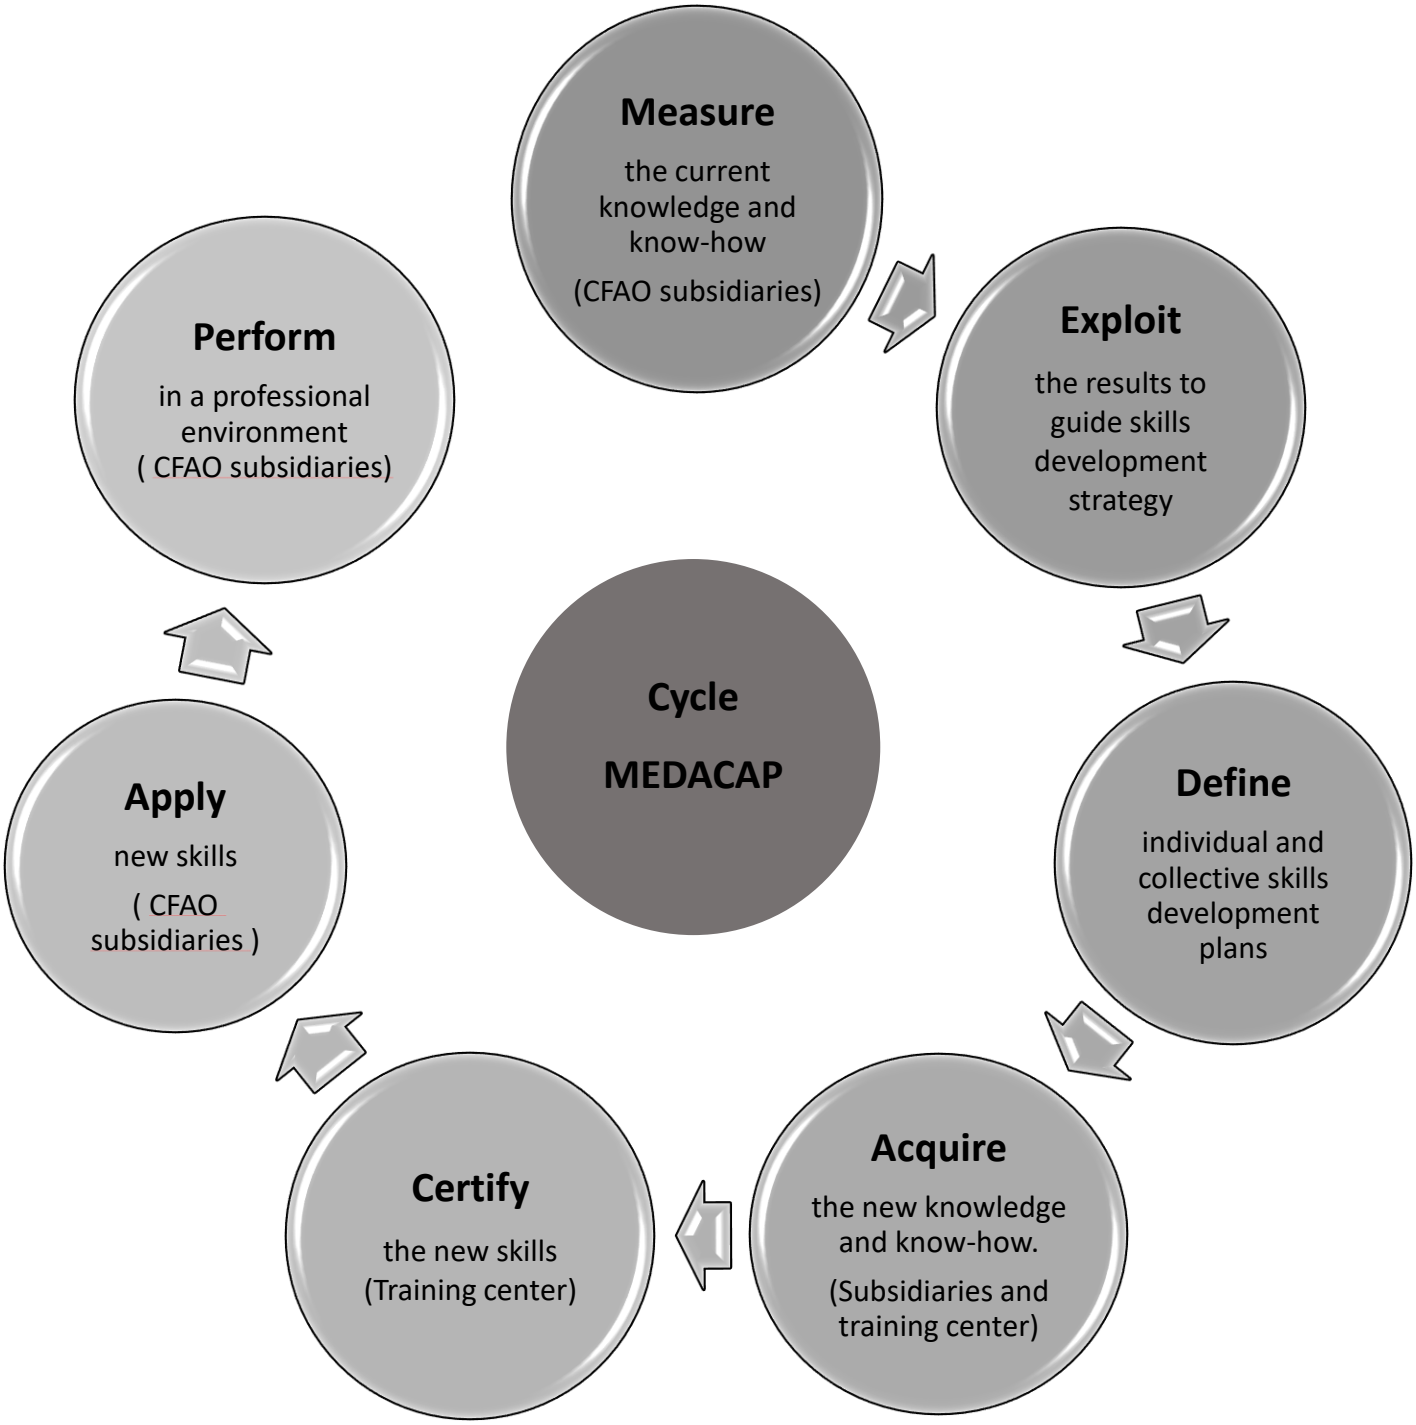

Technical Trainer Expert (TOYOTA FORKLIFT, JCB, LOVOL)

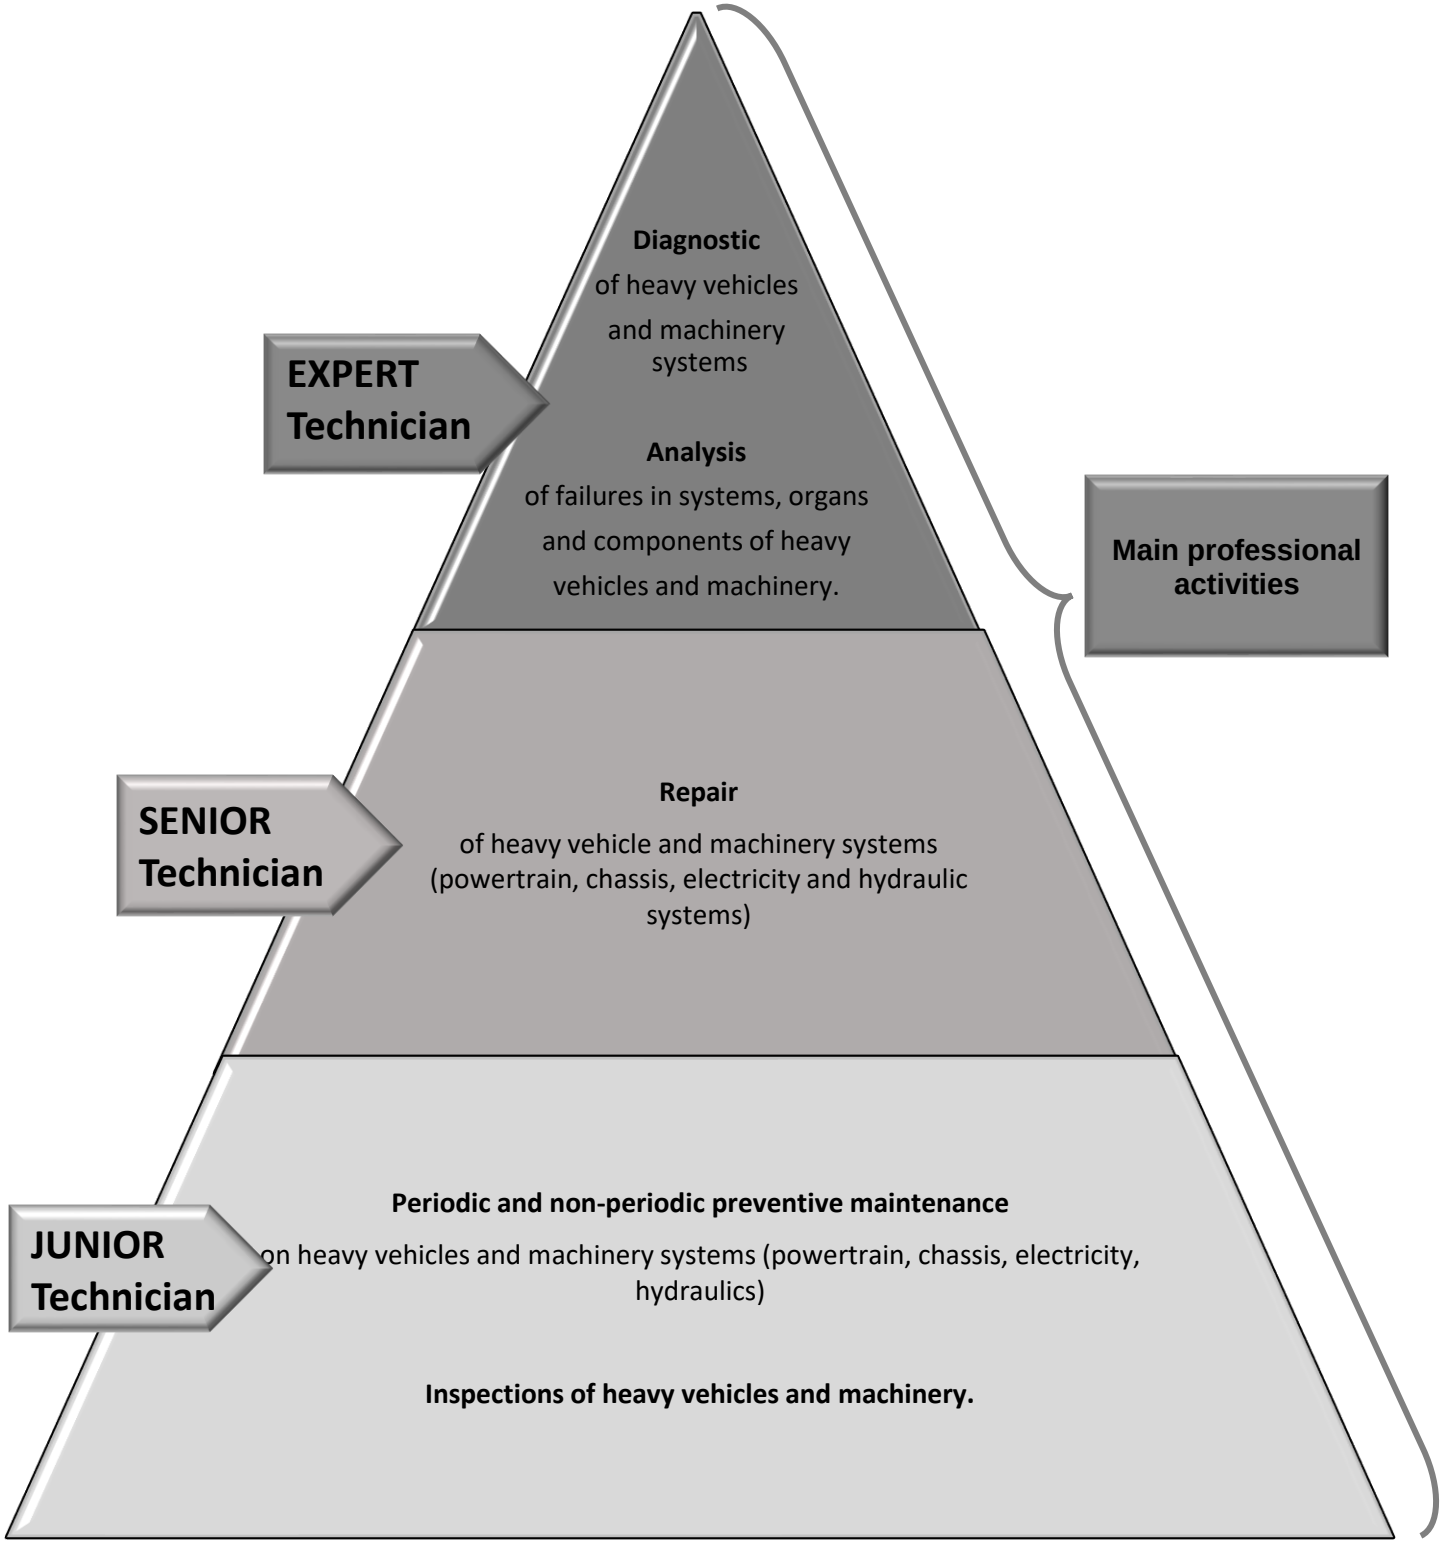

Roland NENDA

Operator Trainer
All- brands expert (Trucks and Heavy Equipment)

DEVELOPING TECHNICIANS' PROFESSIONAL EXPERTISE

SKILL LEVELS OF TECHNICIANS

TRAINING BY TECHNICIAN LEVEL

	Theoretical Training (Knowledge -> E-Learning/Distance Learning)		Practical training (Know-how -> Face-to-face)	
	Themes	**Duration (days)**	**Themes**	**Duration (days)**
EXPERT Technician	❖ The 7 steps of diagnosis applied to the different systems of the truck (powertrain, chassis, electricity), ❖ Features of the Diag tool.	20	❖ Diagnosis of Engine N04C HINO 300 Euro 3 ❖ Diagnosis of Engine W04D HINO 300 Euro 1 ❖ Diagnosis of Engine J08C HINO 500 Euro 2 ❖ Diagnosis of Gerabox MYY6S HINO 300 ❖ Diagnosis of Gerabox LX06 HINO 500 ❖ Diagnosis HINO 300 Euro 3 ❖ Diagnosis of Conventional braking system (with ABS)	5 5 5 5 5 5 5
SENIOR Technician	❖ Technological knowledge of the various truck systems (powertrain, chassis, electricity). ❖ Removal and installation procedure in accordance with the manufacturer, ❖ Disassembly and reassembly procedure in accordance with the manufacturer ❖ Manufacturer-compliant component inspection procedure	20	❖ Repair of N04C HINO 300 Euro 3 Engine ❖ Repair of W04D HINO 300 Euro 1 Engine ❖ Repair of J08C HINO 500 Euro 2 Engine ❖ Repair of f MYY6S HINO 300 Gearbox ❖ Repari of LX06 HINO 500 Gearbox ❖ Repair of Bridge and reducer ❖ Electrical Repair ❖ Repari of Conventional braking system (with ABS)	5 5 5 5 5 5 5 5
JUNIOR Technician	❖ Brand history (truck ranges, characteristics, etc.), ❖ Description of the truck structure and roles of the different truck systems (powertrain, chassis, electricity). ❖ Role of liquids and lubricants ❖ Principle of use of metrology tools, ❖ Periodic and non-periodic preventive maintenance of trucks, ❖ The fundamentals of the engine, transmission, electricity, ❖ Others.	25	Preventive maintenance of HINO 300/500 Truck systems	5

CONTENTS

Page	Code	Training designation	Date	Number of days	Place
8 to 9		JUNIOR TECHNICIAN (PREVENTIVE MAINTENANCE)			
9	HI01	Preventive maintenance of HINO 300/500 truck systems	To be defined	5 days	To be defined
10 to 18		SENIOR TECHNICIAN (REPAIR)			
11	HI02	Repair of N04C HINO 300 Euro 3 Engine	To be defined	5 days	To be defined
12	HI03	Repair of W04D HINO 300 Euro 1 Engine	To be defined	5 days	To be defined
13	HI04	Repair of J08C HINO 500 Euro 2 Engine	To be defined	5 days	To be defined
14	HI05	Repair of MYY6S HINO 300 Gearbox	To be defined	5 days	To be defined
15	HI06	Repair of LX06 HINO 500 Gearbox	To be defined	5 days	To be defined
16	HI07	Repair of Bridge and reducer	To be defined	5 days	To be defined
17	HI08	Electrical Repair	To be defined	5 days	To be defined
18	HI09	Conventional braking system (with ABS)	To be defined	5 days	To be defined
19 to 26		EXPERT TECHNICIAN (DIAGNOSTICS)			
20	HI10	Diagnosis of Engine N04C HINO 300 Euro 3	To be defined	5 days	To be defined
21	HI11	Diagnosis of Engine W04D HINO 300 Euro 1	To be defined	5 days	To be defined
22	HI12	Diagnosis of Engine J08C HINO 500 Euro 2	To be defined	5 days	To be defined
23	HI13	Diagnosis of MYY6S HINO 300 Gearbox	To be defined	5 days	To be defined
24	HI14	Diagnosis of LX06 HINO 500 Gearbox	To be defined	5 days	To be defined

26	HI16	Diagnosis of Conventional braking system diagnosis (with ABS)	To be defined	5 days	To be defined

JUNIOR TECHNICIAN

PREVENTIVE MAINTENANCE

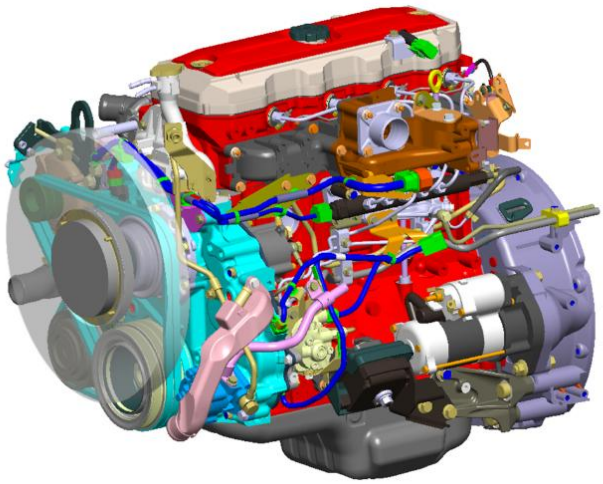

HI01	PREVENTIVE MAINTENANCE OF HINO 300/500 TRUCK SYSTEMS

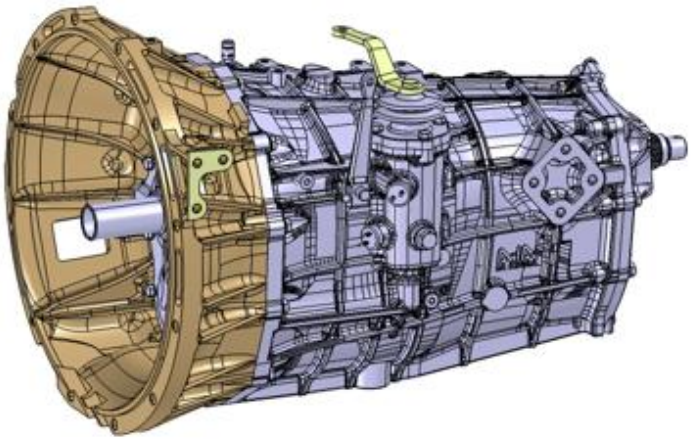

Level, Mode and Duration	JUNIOR	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Maintain** the systems (powertrain, chassis, electricity) in operation according to the manufacturer's recommendations, • **Inspect** the systems (powertrain, chassis, electrical) according to the manufacturer's recommendations.		
Description Theory (40%) Practical (60%)	► **Theoretical Part :** • HINO Truck Ranges and Their Features, • Description of the vehicle structure and role of the different truck systems (Powertrain, Chassis, Electricity) and their components, • Roles of liquids and lubricants, • Principle of use of metrology tools, • The different types of maintenance applied to HINO 300/500 trucks and maintenance periods in accordance with the manufacturer, • Periodic and non-periodic preventive maintenance of systems and components in accordance with the manufacturer. ► **Practical Part:** • Replace oils and fluids (Engine, Gearbox, Axles, Others). • Top up oils and fluids (Engine, Gearbox, Axles, Others) • Remove and replace the components (belt and accessories, pads or linings, etc.) according to the manufacturer's recommendations. • Check the conformity of the components (dimensional, flatness, voltage, intensity, etc.) to the manufacturer's expectations before reassembling them. • Visually inspect the truck's systems. ► **Part Assessment :** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Operational technicians in preventive maintenance		
Prerequisites	Have completed basic mechanics and basic electricity training		
Language	French		
Equipment	Equipped training room and workshop, suitable vehicle(s) available.		
Documentation	Attendance sheet, satisfaction sheet, Certificate of participation.		

TECHNICIEN SENIOR

RÉPARATION

Moteur W04D

Boîte de Vitesses MYY6S

Pont et réducteurs

HI02	REPAIR OF N04C HINO 300 EURO 3 ENGINE

Level, Mode and Duration	SENIOR	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Remove** and **reinstall** the N04C engine following the manufacturer's instructions , • **Disassemble** and **reassemble** the N04C engine following the manufacturer's instructions, • **Check** compliance N04C engine components to manufacturer expectations , • **Test and adjust** the N04C engine in accordance with the manufacturer's recommendations.		
Description Theory (40%) Practical (60%)	► **Theoretical Part:** • Description and operation of the N04C engine, • Description of the lubrication and cooling system, • Description of the injection system, • Description of the electronic engine management system, • Removal and refitting procedure following the manufacturer's instructions, • Disassembly and reassembly procedure following the manufacturer's instructions, • Procedure for checking components according to the manufacturer's instructions. ► **Practical Part :** • Remove the N04C engine following the manufacturer's instructions, • Disassemble the N04C engine following the manufacturer's instructions, • Clean the N04C engine components, • Check the conformity of the components to the expectations of the builder, • Replace non-compliant components to the manufacturer's expectations, • Reassemble the N04C engine components following the manufacturer's instructions, • Reinstall the N04C engine on the truck following the manufacturer's instructions, • Test and adjust the engine on the truck. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Technicians performing the repair		
Prerequisites	Have acquired the skills of the JUNIOR Technician Level (Preventive Maintenance)		
Language	French		
Equipment	Equipped training room and workshop, N04C engine on bench, Adapted vehicle(s) available.		
Documentation	Attendance sheet, satisfaction sheet, Certificate of participation.		

HI03	REPAIR OF W04D HINO 300 EURO 1 ENGINE

Level, Mode and Duration	SENIOR	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Remove** and **reinstall** the W04D engine following the manufacturer's recommendations, • **Disassemble** and **reassemble** the W04D engine following the manufacturer's instructions, • **Check** compliance W04D engine components meet manufacturer expectations, • **Test and adjust** the W04D engine in accordance with the manufacturer's recommendations.		
Description Theory (40%) Practical (60%)	► **Theoretical Part:** • Description and operation of the W04D engine, • Description of the lubrication and cooling system, • Description of the injection system, • Description of the electronic engine management system, • Removal and installation procedure following the manufacturer's instructions, • Disassembly and reassembly procedure following the manufacturer's instructions, • Procedure for checking components according to the manufacturer's instructions. ► **Practical Part :** • Remove the W04D engine following the manufacturer's instructions, • Disassemble the W04D engine following the manufacturer's instructions, • Clean the W04D engine components, • Check the conformity of components to the manufacturer's expectations, • Replace components that do not meet the manufacturer's expectations, • Reassemble the W04D engine components following the manufacturer's instructions, • Reinstall the W04D engine on the next truck the manufacturer's instructions, • Test and adjust the engine on the truck. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Technicians performing the repair		
Prerequisites	Have acquired the skills of the JUNIOR Technician Level (Preventive Maintenance)		
Language	French		
Equipment	Equipped training room and workshop, W04D engine on bench, Adapted vehicle(s) available.		
Documentation	Attendance sheet, satisfaction sheet, Certificate of participation.		

HI04	REPAIR OF J08C HINO 500 EURO 2 ENGINE

Level, Mode and Duration	SENIOR	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Remove** and **reinstall** the J08C engine following the manufacturer's recommendations, • **Disassemble** and **reassemble** the J08C engine following the manufacturer's instructions, • **Check** compliance J08C engine components to manufacturer expectations, • **Test and adjust** the J08C engine according to the manufacturer's recommendations.		
Description Theory (40%) Practical (60%)	► **Theoretical Part:** • Description and operation of the J08C engine, • Description of the lubrication and cooling system, • Description of the injection system, • Description of the electronic engine management system, • Removal and installation procedure following the manufacturer's instructions, • Disassembly and reassembly procedure following the manufacturer's instructions, • Procedure for checking components according to the manufacturer's instructions. ► **Practical Part :** • Remove the J08C engine following the manufacturer's instructions, • Disassemble the J08C engine following the manufacturer's instructions, • Clean engine components J08C, • Check the conformity of components to the manufacturer's expectations, • Replace components that do not meet the manufacturer's expectations, • Reassemble the J08C engine components following the manufacturer's instructions, • Reinstall the J08C engine on the truck following the manufacturer's instructions, • Test and adjust the engine on the truck. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Technicians performing the repair		
Prerequisites	Have acquired the skills of the JUNIOR Technician Level (Preventive Maintenance)		
Language	French		
Equipment	Equipped training room and workshop, J08C engine on bench, Adapted vehicle(s) available.		
Documentation	Attendance sheet, satisfaction sheet, Certificate of participation.		

HI05	REPAIR OF MYY6S HINO 300 GEARBOX

Level, Mode and Duration	SENIOR	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Put down** and **put back** the box of MYY6S speeds respecting the manufacturer's recommendations, • **Disassemble** and **reassemble** the box of speeds MYY6S in accordance with the manufacturer's instructions, • **Check** compliance components of the box of speeds MYY6S to the manufacturer's expectations, • **Test and adjust** the box of speeds MYY6S in accordance with the manufacturer's recommendations.		
Description Theory (40%) Practical (60%)	► **Theoretical Part:** • Description and operation of the box of speeds MYY6S, • Procedure for removing and replacing the box of speeds MYY6S following the manufacturer's instructions, • Procedure for disassembly and reassembly of the box of speeds MYY6S following the manufacturer's instructions, • Procedure for checking components of the box of speeds MYY6S following the manufacturer's instructions. ► **Practical Part :** • Drop the box MYY6S gears according to the manufacturer's instructions, • Disassemble the MYY6S gearbox following the manufacturer's instructions, • Clean the MYY6S gearbox components, • Check the conformity of components to the manufacturer's expectations, • Replace components that do not meet the manufacturer's expectations, • Reassemble the components of the box of speeds MYY6S following the manufacturer's instructions, • Refit the MYY6S gearbox following the manufacturer's instructions, • Test and adjust the MYY6S gearbox on the truck. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Technicians performing the repair		
Prerequisites	Have acquired the skills of the JUNIOR Technician Level (Preventive Maintenance)		
Language	French		
Equipment	Equipped training room and workshop, Box of speeds MYY6S on bench, Adapted vehicle(s) available.		
Documentation	Attendance sheet, satisfaction sheet, Certificate of participation.		

HI06	REPAIR OF LX06 HINO 500 GEARBOX

Level, Mode and Duration	SENIOR	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Put down** and **put back** the box of LX06 speeds respecting the manufacturer's recommendations, • **Disassemble** and **reassemble** the box of speeds LX06 in accordance with the manufacturer's instructions, • **Check** compliance components of the box of speeds LX06 to the manufacturer's expectations, • **Test and adjust** the box of speeds LX06 in accordance with the manufacturer's recommendations.		
Description Theory (40%) Practical (60%)	► **Theoretical Part:** • Description and operation of the box of speeds LX06, • Procedure for removing and replacing the box of speeds LX06 following the manufacturer's instructions, • Procedure for disassembly and reassembly of the box of speeds LX06 following the manufacturer's instructions, • Procedure for checking components of the box of speeds LX06 following the manufacturer's instructions. ► **Practical Part :** • Drop the box LX06 gears according to the manufacturer's instructions, • Disassemble the LX06 gearbox following the manufacturer's instructions, • Clean the LX06 gearbox components, • Check the conformity of components to the manufacturer's expectations, • Replace components that do not meet the manufacturer's expectations, • Reassemble the components of the box of speeds LX06 following the manufacturer's instructions, • Refit the LX06 gearbox following the manufacturer's instructions, • Test and adjust the LX06 gearbox on the truck. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Technicians performing the repair		
Prerequisites	Have acquired the skills of the JUNIOR Technician Level (Preventive Maintenance)		
Language	French		
Equipment	Equipped training room and workshop, Box of speeds LX06 on bench, Adapted vehicle(s) available.		
Documentation	Attendance sheet, satisfaction sheet, Certificate of participation.		

HI07	REPAIR OF BRIDGE AND REDUCER

Level, Mode and Duration	SENIOR	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Put down** and **put back** the bridge and wheel reducers, according to the manufacturer's recommendations, • **Disassemble** and **reassemble** the vehicle's axle and wheel reducers in accordance with the manufacturer's recommendations, • **Control** compliance components of the organs (Bridge and reducers) to the manufacturer's expectations, • **Test** and **adjust** the components of the axle and wheel reducers in accordance with the manufacturer's recommendations.		
Description Theory (40%) Practical (60%)	► **Theoretical Part:** • Description and operation of the bridge and reducers, • Removal and installation procedure of the bridge and reducers according to the manufacturer's instructions, • Procedure for disassembly and reassembly of the bridge and reducers following the manufacturer's instructions, • Procedure for checking the components of the bridge and the reducers according to the manufacturer's instructions. ► **Practical Part:** • Remove the bridge mechanism and reducers following the manufacturer's instructions, • Disassemble the bridge mechanism and reducers following the manufacturer's instructions, • Clean the components of the bridge mechanism and reducers, • Check the conformity of the components of the bridge mechanism and the reducers with the manufacturer's expectations, • Replace components that do not meet the manufacturer's expectations, • Reassemble the components of the bridge mechanism and reducers following the manufacturer's instructions, • Reinstall the bridge mechanism and reducers following the manufacturer's instructions, • Test and adjust the bridge mechanism and reducers. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Technicians performing the repair		
Prerequisites	Have acquired the skills of the JUNIOR Technician Level (Preventive Maintenance)		
Language	French		
Equipment	Equipped training room and workshop, bench bridge, adapted vehicle(s) available.		
Documentation	Attendance sheet, satisfaction sheet, Certificate of participation.		

HI08	ELECTRICAL REPAIR

Level, Mode and Duration	SENIOR	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Remove** and **reinstall** the electrical system components (starting, charging, air conditioning and lighting circuits, etc.) in accordance with the manufacturer's recommendations, • **Disassemble** and **reassemble** parts of the electrical system in accordance with the manufacturer's recommendations, • **Check** the conformity of the components of the electrical organs (fuse, relay, starter, alternator, etc.) with the manufacturer's expectations, • **Test** and **adjust** electrical circuits in accordance with the manufacturer's recommendations.		
Description Theory (40%) Practical (60%)	► **Theorical Part:** • Reminder of the principles of electricity and electronics, • Description and operation of the electrical system and its various circuits (starting circuit, charging circuit, air conditioning circuit, lighting circuit, etc.) • Procedure for checking electrical components and organs according to the manufacturer's instructions, • Procedure for checking electrical components and organs according to the manufacturer's instructions. ► **Practical Part:** • Remove and install the electrical circuit components according to the manufacturer's recommendations, • Disassemble and reassemble the vehicle's electrical components according to the manufacturer's recommendations, • Clean the components and organs of the electrical circuit, • Check the conformity of the components of the electrical organs (fuse, relay, starter, alternator, etc.) with the manufacturer's expectations, • Replace non-compliant components according to the manufacturer's expectations, • Test and adjust the component in the vehicle's electrical circuit. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Technicians performing the repair		
Prerequisites	Have acquired the skills of the JUNIOR Technician level (Preventive maintenance)		
Language	French		
Equipment	Equipped training room and workshop, suitable vehicle(s) available.		
Documentation	Attendance sheet, satisfaction sheet, Certificate of participation.		

HI09	REPAIR OF CONVENTIONAL BRAKING SYSTEM (with ABS)

Level, Mode and Duration	SENIOR	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Remove** and **reinstall** the drum brake mechanism following the manufacturer's recommendations, • **Disassemble** and **reassemble** the drum brake mechanism following the manufacturer's recommendations, • **Control** compliance drum brake components to manufacturer expectations, • **Test** and **adjust** the S cam brake mechanism in accordance with the manufacturer's recommendations,		
Description Theory (40%) Practical (60%)	► **Theoretical Part:** • Description and operation of the conventional braking system (mechanical and pneumatic) and the types of brake, • Description and operation of the S cam brake, • Procedure for removing and installing the S cam brake following the manufacturer's instructions, • Procedure for disassembling and reassembling the S cam brake following the manufacturer's instructions, • Procedure for checking the components of the S cam brake according to the manufacturer's instructions. ► **Practical Part:** • Remove and replace a relay valve following the manufacturer's recommendations, • Disassemble and reassemble the parking brake relay valve following the manufacturer's instructions, • Remove the S cam brake mechanism following the manufacturer's instructions, • Disassemble the S cam brake mechanism following the manufacturer's instructions, • Clean the components of the S cam brake mechanism, • Check the conformity of components to the manufacturer's expectations, • Replace components that do not meet the manufacturer's expectations, • Reassemble the components of the S cam brake mechanism following the manufacturer's instructions, • Reinstall the cam brake mechanism S following the manufacturer's instructions, • Test and adjust the S cam brake. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Technicians performing the repair		
Prerequisites	Have acquired the skills of the JUNIOR Technician Level (Preventive Maintenance)		
Language	French		
Equipment	Equipped training room and workshop, suitable vehicle(s) available.		
Documentation	Attendance sheet, satisfaction sheet, Certificate of participation.		

TECHNICIEN EXPERT

DIAGNOSTIC

HI10	DIAGNOSIS OF ENGINE N04C HINO 300 EURO 3

Level, Mode and Duration	EXPERT	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Diagnose** N04C engine related faults, • **Recommend** remedial actions.		
Description Theory (40%) Practical (60%)	► **Theoretical Part:** • Reminder on the description of the injection system and electronic engine management, • Malfunctions of N04C engine components, • Diagnostic steps and features of the Diag tool. ► **Practical Part:** 1. Collect the various symptoms of the malfunction/failure and the history of the truck's failures and repairs (Client and Diag tool), 2. Estimate the cause of the malfunction/breakdown, 3. Test or check the conformity of the N04C engine systems and components, 4. Identify the most likely hypothesis based on the tests and symptoms, 5. Develop recommendations for components to be changed or repaired , 6. Carry out the repair of the defective component, 7. Test and adjust the system affected by the truck repair. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Technicians performing diagnostics		
Prerequisites	Have acquired the skills of the SENIOR Technician Level (Repair)		
Language	French		
Equipment	Equipped training room and workshop, N04C engine on bench, Diagnostic tool, Adapted vehicle(s) available.		
Documentation	Attendance sheet, satisfaction sheet, Certificate of participation.		

HI11	DIAGNOSIS OF ENGINE W04D HINO 300 EURO 1

Level, Mode and Duration	EXPERT	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Diagnose** faults related to the W04D engine, • **Recommend** remedial actions.		
Description Theory (40%) Practical (60%)	► **Theoretical Part:** • Reminder on the description of the injection system and electronic engine management, • W04D engine component malfunctions, • Diagnostic steps and features of the Diag tool. ► **Practical Part:** 1. Collect the various symptoms of the malfunction/failure and the history of the truck's failures and repairs (Client and Diag tool), 2. Estimate the cause of the malfunction/breakdown, 3. Test or check the conformity of the systems and components of the W04D engine, 4. Identify the most likely hypothesis based on the tests and symptoms, 5. Develop recommendations for components to be changed or repaired, 6. Carry out the repair of the defective component, 7. Test and adjust the system affected by the truck repair. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Technicians performing diagnostics		
Prerequisites	Have acquired the skills of the SENIOR Technician Level (Repair)		
Language	French		
Equipment	Equipped training room and workshop, W04D engine on bench, Diagnostic tool, Adapted vehicle(s) available.		
Documentation	Attendance sheet, satisfaction sheet, Certificate of participation.		

HI12	DIAGNOSIS OF ENGINE J08C HINO 500 EURO 2

Level, Mode and Duration	EXPERT	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Diagnose** faults related to the J08C engine, • **Recommend** remedial actions.		
Description Theory (40%) Practical (60%)	► **Theoretical Part:** • Reminder on the description of the injection system and electronic engine management, • J08C engine component malfunctions, • Diagnostic steps and features of the Diag tool. ► **Practical Part:** 1. Collect the various symptoms of the malfunction/failure and the history of the truck's failures and repairs (Client and Diag tool), 2. Estimate the cause of the malfunction/breakdown, 3. Test or check the conformity of the systems and components of the J08C engine, 4. Identify the most likely hypothesis based on the tests and symptoms, 5. Develop recommendations for components to be changed or repaired, 6. Carry out the repair of the defective component, 7. Test and adjust the system affected by the truck repair. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Technicians performing diagnostics		
Prerequisites	Have acquired the skills of the SENIOR Technician Level (Repair)		
Language	French		
Equipment	Equipped training room and workshop, J08C engine on bench, Diagnostic tool, Adapted vehicle(s) available.		
Documentation	Attendance sheet, satisfaction sheet, Certificate of participation.		

HI13	DIAGNOSIS OF MYY6S HINO 300 GEARBOX

Level, Mode and Duration	EXPERT	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Diagnose** faults related to the MYY6S gearbox, • **Recommend** repair actions.		
Description Theory (40%) Practical (60%)	► **Theoretical Part:** • Review of the description and operation of the MYY6S gearbox, • Malfunctions of MYY6S gearbox components, • Diagnostic steps and functionalities of the diagnostic tool ► **Practical Part:** 1. Gather the various symptoms of the malfunction/failure and the history of breakdowns and repairs of the truck (Customer and diagnostic tool), 2. Formulate hypotheses regarding the cause of the malfunction/failure, 3. Test or check the conformity of the systems and components of the MYY6S gearbox, 4. Identify the most probable hypothesis based on the tests and symptoms, 5. Develop a recommendation for the components to be replaced or repaired, 6. Carry out the repair of the defective component, 7. Test and adjust the system involved in the truck repair. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Diagnostic Technicians		
Prerequisites	Completion of Senior Technician Level (Repair) skills		
Language	French		
Equipment	Equipped training room and workshop, MYY6S gearbox on a test bench, diagnostic tool, suitable vehicle(s) available.		
Documentation	Attendance sheet, satisfaction sheet, Certificate of participation.		

HI14	DIAGNOSIS OF LX06 HINO 500 GEARBOX

Level, Mode and Duration	EXPERT	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Diagnose** faults related to the LX06 gearbox, • **Recommend** repair actions.		
Description Theory (40%) Practical (60%)	► **Theoretical Part:** • Review of the description and operation of the LX06 gearbox, • Malfunctions of LX06 gearbox components, • Diagnostic steps and functionalities of the diagnostic tool ► **Practical Part:** 8. Gather the various symptoms of the malfunction/failure and the history of breakdowns and repairs of the truck (Customer and diagnostic tool), 9. Formulate hypotheses regarding the cause of the malfunction/failure, 10. Test or check the conformity of the systems and components of the LX06 gearbox, 11. Identify the most probable hypothesis based on the tests and symptoms, 12. Develop a recommendation for the components to be replaced or repaired, 13. Carry out the repair of the defective component, 14. Test and adjust the system involved in the truck repair. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Diagnostic Technicians		
Prerequisites	Completion of Senior Technician Level (Repair) skills		
Language	French		
Equipment	Equipped training room and workshop, LX06 gearbox on a test bench, diagnostic tool, suitable vehicle(s) available.		
Documentation	Attendance sheet, satisfaction sheet, Certificate of participation.		

HI15	ELECTRICAL AND ELECTRONIC DIAGNOSTICS HINO 300 EURO 3

Level, Mode and Duration	EXPERT	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Diagnose** faults relating to the truck's electrical and electronic systems, • **Recommend remedial actions.**		
Description Theory (40%) Practical (60%)	► **Theoretical Part:** • Description and operation of the electronic/electrical architecture, • Description and functions of the electronic architecture modules, • Malfunctions of the electrical system (starting, charging, air conditioning, and lighting circuits, etc.), and electronics (modules), • Diagnostic steps and features of the Diag tool. ► **Practical Part:** 1. Collect the various symptoms of the malfunction/failure and the history of the truck's failures and repairs (Client and Diag tool), 2. Estimate the cause of the malfunction/breakdown, 3. Test or check the conformity of electrical systems and components with the manufacturer's recommendations, 4. Identify the most likely hypothesis based on the tests and symptoms, 5. Develop recommendations for components to be changed or repaired, 6. Carry out the repair of the defective component, 7. Test and adjust the system affected by the truck repair. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Technicians performing diagnostics		
Prerequisites	Have acquired the skills of the SENIOR Technician Level (Repair)		
Language	French		
Equipment	Equipped training room and workshop, diagnostic tool, suitable vehicle(s) available.

HI16	DIAGNOSIS OF CONVENTIONAL BRAKING SYSTEM (WITH ABS)

Level, Mode and Duration	EXPERT	Face-to-face	05 days
Animator	**HINO Expert Trainer**		
Goals	• **Diagnose** failures related to the conventional braking system, • **Recommend** remedial actions.		
Description Theory (40%) Practical (60%)	► **Theoretical Part:** • Reminder of the description and operation of the components of the conventional braking system, • Malfunctions of conventional braking system components, • The diagnostic steps, ► **Practical Part:** 1. Collect the various symptoms of the malfunction and the history of the truck's breakdowns and repairs (Client and Diag tool), 2. Estimate the cause of the malfunction/breakdown, 3. Test or check the conformity of the systems and components of the conventional braking system with the manufacturer's recommendations, 4. Identify the most likely hypothesis based on the tests and symptoms, 5. Develop recommendations for components to be changed or repaired, 6. Carry out the repair of the defective component, 7. Test and adjust the system to be repaired. ► **Evaluation Part:** • Initial Test (Prerequisite Assessment) • Final Test (Assessment of Acquired Skills)		
Target audience	Technicians performing diagnostics		
Prerequisites	Have acquired the skills of the SENIOR Technician Level (Repair)		
Language	French		
Equipment	Equipped training room and workshop, suitable vehicle(s) available.		
Documentation	Attendance sheet, Satisfaction sheet, Certificate of participation.
